

# Cable steel strip

---

***BURSERYDS BRUK***

# Cable steel strip

## SIZE RANGE

When ordering hot-dip galvanized cable steel strip, please state if the thickness includes zinc coating.

**NOTE!** The thinnest strip thickness for bright or blue annealed cable steel strip is 0.30 mm.

# Cable steel strip

EDGES	Hot-dip galvanized cable steel strip is delivered with galvanized edges Bright cable steel strip is delivered with slitted edges Blue annealed cable steel strip is delivered with slitted and bright edges														
FINISHES	Hot-dip galvanized steel strip  Bright cable steel strip Bright cable steel strip is normally delivered without surface treatment If required, strip may be oiled to provide corrosion protection  Blue annealed cable steel strip If required, strip may be oiled to provide corrosion protection														
DELIVERY FORM	In ribbon wound coils														
COIL SIZES	Inside diameter: 120 mm, 128 mm, 150 mm, 160 mm, 165 mm, 180 mm, 200 mm, 225 mm, 300 mm, 400 mm Other measurements according to agreement Thickness: $\geq 1.00$ mm id $\geq 225$ mm Outside diameter within 300-770 mm														
QUALITY	Manufactured according to specification														
ZINC COATING	Zinc weights 100-350 g/m <sup>2</sup>														
CONVERSION TABLE ZINC WEIGHT	<table border="1"><thead><tr><th>g/m<sup>2</sup></th><th><math>\mu</math>m</th></tr></thead><tbody><tr><td>100</td><td>14</td></tr><tr><td>150</td><td>21</td></tr><tr><td>200</td><td>28</td></tr><tr><td>250</td><td>35</td></tr><tr><td>300</td><td>42</td></tr><tr><td>350</td><td>49</td></tr></tbody></table>	g/m <sup>2</sup>	$\mu$ m	100	14	150	21	200	28	250	35	300	42	350	49
g/m <sup>2</sup>	$\mu$ m														
100	14														
150	21														
200	28														
250	35														
300	42														
350	49														
QUALITY CONTROL	The following properties are checked before delivery: Tensile strength (Rm)      N/mm <sup>2</sup> (1N/mm <sup>2</sup> = 1 MPa) Elongation (A)              % Zinc weight                  g/m <sup>2</sup> Adherence of the zinc coating Certificates are issued on request														
WHEN ORDERING	Please state: Standard specification required Inside and outside diameter of coils If the thickness includes zinc coating If tensile strength and elongation are required to be checked on strip with or without zinc coating Measured length for checking elongation  If required, please state: Mandrel diameter for checking zinc adherence in bending test Dip test procedure														
PACKING	Wrapped in plastic on EUR-pallet Other types of packing according to agreement
